ABOUT ME

I'm a passionate and results-driven MERN stack developer with a Master's degree in Computer Science. I specialize in building scalable, responsive, and high-performance web applications using MongoDB, Express.js, React, and Node.js. With a strong foundation in software engineering principles and full-stack development, I enjoy turning complex problems into elegant, user-friendly solutions.

EDUCATION

2023 - 2025	Master of Computer Science Collaborated on academic and real-world projects involving databases, distributed systems, and web technologies.
2020 - 2023	Bachelor of Art and Design Completed rigorous academic coursework in computing theory & practical programming Collaborated on cross-functional team projects to solve real-world technical problems
2018 - 2020	Higher Secondary Certificate Focused on developing a foundational understanding of computers, coding, and technology
Bharathiar University	
Bharathiar University	
SR High School	

COURSE

2024 - 2025	Diploma in REactNode FullStack Development <ul style="list-style-type: none">Designed and developed full-stack web applications using the MERN stackBuilt dynamic front-end interfaces using React.js, with state management via Redux/Context APICreated robust RESTful APIs using Node.js and Express.jsIntegrated and managed databases using MongoDB, including Mongoose schemas and aggregation pipelinesImplemented user authentication (JWT, OAuth) and authorization systemsUsed Git, GitHub, and agile workflows for version control and collaborationOptimized applications for performance, scalability, and mobile responsivenessDeployed projects using Heroku, Vercel, or Netlify, and configured CI/CD pipelines
